WCC President's Message

Dear WCC Friends:

I've been at WCC for over four years now, and it's been quite a ride! When I came, I knew WCC was a great place. However, I had no idea that the college would experience 40 percent enrollment growth. Who could have imagined? Now, I do not take credit for this unprecedented change. We all recognize that the recent economic crisis has brought many students to WCC—people often return to college to retrain when times are bad. However, the enrollment growth is also the result of the hard work of lots of folks.

First, WCC already had a reputation of providing high-quality educational opportunities. We have great faculty and staff who care about student success. WCC has a positive recruitment program. We've worked to build strong relationships with local public schools. We've started several new curricular programs, like respiratory therapy, HVAC, truck driver training, human services—to name only a few.

Also, we've been very fortunate to have greatly expanded our scholarship programs. In recent years, not only have the WCC Educational Foundation and the WCC Scholarship Foundation raised thousands of dollars to support our own scholarship program, but the Wythe-Bland Foundation and the Virginia Tobacco Indemnification and Community Revitalization Commission have also provided tremendous scholarship opportunities for WCC students. As you can see, the enrollment growth has resulted from a combination of many factors.

Why is enrollment growth important? First and foremost, students benefit; that's what WCC is all about. Education is a necessity. Over 85 percent of jobs now require at least some education beyond the high school level. Students with college degrees consistently earn more over a lifetime than non-college attendees. Beyond that, a better trained workforce encourages regional economic development. Companies are more likely to come to regions where they can find and hire qualified employees. And, of course, enrollment growth helps sustain the college itself because the state of Virginia funds WCC based on the number of students who attend.

The information in the coming pages is designed to give you an overview of what has been happening at WCC since the publication of our "Historical Report." This report also recognizes the tremendous support that WCC has received through our Foundations to help students achieve their dreams. To all of you who have invested in WCC, thank you!!! WCC greatly appreciates your support.

Sincerely,

Charlie White

Foundation Presidents' Message

Dear WCC Friends:

On behalf of the WCC Educational Foundation and the WCC Scholarship Foundation, we are pleased to share with you in this report some of the exciting projects that the Foundations help support through the generosity of many private donors. To everyone who has contributed to the Foundations, THANK YOU!!!

Within this report, you will find highlights of several of the new scholarship endowments that have recently been established, as well as reminders of some historical funds, endowments, projects, and activities that the Foundations continue to sponsor. Literally thousands of students have benefited from scholarships since the WCC Educational Foundation was established in 1981, and hundreds of additional students have received much-needed support from the WCC Scholarship Foundation. The exciting new Wythe-Bland Foundation Scholarship Program and the WCC Forging Futures Scholarship Program provide additional resources to help students, but we still have tremendous need. Despite all of the scholarships available, over 500 students who applied for scholarships last year did not receive financial assistance. With rising costs of tuition, textbooks, and transportation costs, scholarships are needed more than ever. Please know how much we appreciate all of the support the college receives for scholarships to help deserving students achieve their dreams.

Beyond scholarships, the Foundations are also committed to supporting other college needs. The William F. Snyder Auditorium is nearing completion and will be available next year for both educational and cultural programming. The WCC Educational Foundation continues to support faculty and staff professional development initiatives, as well as the Kegley Library and the Chitwood Nursing Lab. Additionally, grant resources have been secured to support the development of new programs such as the Truck Driver Training Program, and the HVAC Program. We are grateful to the donors and grant agencies who support these important projects.

We hope that you will enjoy learning more about Wytheville Community College. Please know how much we appreciate your investment in the students that we serve. You truly make a positive difference in the lives of students and the communities that the college serves.

Sincerely,

Robert P. Kegley
Robert P. Kegley, President
WCC Educational Foundation, Inc.

WCC Highlights, 2008-2010

College tackles issue of campus-wide security

WCC, in an ongoing effort to improve campus safety for students, faculty, and staff, conducted its first campus-wide shelter-in-place exercise in January of 2009. The purpose of the exercise was to provide training for faculty and staff to carry out steps contained in the college's lockdown procedure and to test the procedure to determine where weaknesses exist, with an eye toward further improving the existing lockdown process.

The college utilized its "WCC Alert System," which notifies subscribers about potential emergencies on campus, but is also used to distribute notices and college closings due to weather conditions via real-time cell phone text messages and e-mails. An outdoor loudspeaker system was used to alert individuals outside the college buildings while communication systems within the buildings prompted the lockdown of campus offices and classrooms, including the locking of all exterior doors. Handheld mobile radios were utilized to maintain communications between buildings during the exercise.

Since then, the college held a second shelter-in-place exercise at the beginning of the Fall 2010 term involving faculty and staff. In October, the college undertook a third shelter-in-place exercise which also included student participation. An event was held during the day and also during evening classes. After each exercise, the college conducts a debriefing in order to improve its emergency procedures.

Crossroads enrollment sees substantial growth

Wytheville Community College at the Crossroads Institute in Galax has substantially increased enrollment since 2005 when the college moved its regional site from downtown Galax to the entrepreneurial center.

Enrollment at the Crossroads Institute site has more than doubled from 52 "full-time equivalent" students during the college's Summer semester in 2005 to 131 "full-time equivalent" students during the Summer semester of 2009 when the college set a summer

A student distributes Mardi Gras beads during the annual Spring Fling held at the college in April of 2010. The event included free food, activities, and entertainment for students, faculty, and staff.

enrollment record.

WCC at the Crossroads Institute offers an assortment of courses in traditional classrooms and through the college's distance learning program. In addition to a growing variety of online classes, the regional site in Galax offers full academic programs in Construction Technology – with specializations in Carpentry, Electrical, Plumbing—and HVAC, Corrections Science, Certified Nursing Assistant, Education, General Studies, Licensed Practical Nursing (LPN) and Truck Driver Training.

Students meet local legislators in Richmond

WCC took a group of students to Richmond in early 2010 to meet their local legislators and to tell their stories about how a community college education has improved their lives and career opportunities. The event was held in conjunction with the Virginia Community College System's "Every Day is Community College Day" program.

The students attended an evening reception and then the following day they visited with the legislators who represent WCC's service region, including Del. Ward Armstrong, Del. Bill Carrico, Del. Anne

WCC Highlights, *Continued*

WCC administrators and students met with Del. Anne Crockett-Stark during “Every Day is Community College Day” program’s annual visit to the General Assembly.

B. Crockett-Stark, Sen. Phillip Puckett, Sen. Roscoe Reynolds, and Sen. William Wampler. The students, along with their administrator chaperons, had the opportunity to sit in on meetings of the House and the Senate during their visit.

“These trips to Richmond are very worthwhile,” said WCC President Charlie White of the “Every Day is Community College Day” program. “It is very educational for the students and it gives our legislators a chance to meet the people who are affected by their decisions pertaining to higher education funding.”

Sen. Phillip Puckett (seated) received a visit from several WCC students during the annual trip to the General Assembly in Richmond.

New programs include HVAC and Solar Installer

New academic programs instituted at WCC over the past two years include Heating, Ventilation and Air Conditioning (HVAC), Solar Installer, Human Services, and Truck Driver Training. Several of the new programs are based at the Crossroads Institute in Galax.

The new HVAC program is based in Galax. A shortage of qualified workers in HVAC has created the need for trained personnel. This diploma program is designed for those individuals currently in the trade seeking licensure and those seeking entry-level employment. The program is offered primarily in the evening.

The Solar Installer Career Studies Certificate was developed as part of \$3.6-million Green Energy Grant Award from the Department of Labor. The certificate offers a new “green” curricular career pathway for Construction Technology students seeking licensure and careers as Tradesmen and Building Contractors. The program is also based in Galax.

WCC initiated a new General Studies associate degree program with a specialization in Human Services beginning in the fall of 2009. The human services profession, according to the “Occupational Outlook Handbook,” will grow faster than most other professions--an increase of 21 percent or more--over the 10-year period that began in 2006. WCC not only offers the Human Services specialization within the General Studies degree, but opportunities are available for articulation to a Human Services and Counseling degree with several four-year universities.

WCC’s Truck Driver Training program is based in Galax at the Crossroads Institute, but has also been offered twice in Marion.

New selective admission policy eliminates lists

Waiting lists for admission to Wytheville Community College’s associate degree programs in health professions such as Nursing and Dental Hygiene are a thing of the past.

The college has instituted a selective admission

WCC Highlights, *Continued*

process for its health professions programs in Dental Hygiene, Medical Laboratory Technology, Nursing, Physical Therapist Assistant, and Radiologic Technology.

The application deadline for fall semester admission to these health professions programs is February 15, which is earlier than the application deadline for other WCC programs.

Admission to WCC does not guarantee enrollment in any specific course or program. Selective admission programs have a limited number of openings each year and have specific entry-level admission requirements that must be met before selection for admission to the program.

In the event there are more applicants who apply in a given year than there are slots in a particular health professions program, the college employs selective admission. The number of applicants admitted to health programs at WCC is limited for several reasons, including the number of places available for clinical experiences, program accreditation restrictions, space limitations of campus facilities (classrooms and laboratories), and the number of available teaching faculty. As a result, the selective admission process employs a competitive process for selecting students that will be admitted to the specific health professions programs.

WCC's men's basketball team battles the second squad from Oak Hill Academy during the 2009-2010 season.

WCC joins the NJCAA for basketball, volleyball

Wytheville Community College has joined Region 10 of the National Junior College Athletic Association (NJCAA) for men's basketball and women's volleyball.

The NJCAA is the governing body of the intercollegiate athletics for two-year colleges. As such, its programs are designed to meet the unique needs of a diverse group of student athletes who come from both traditional and non-traditional backgrounds. The mission of the NJCAA is to foster a national program of athletic participation in an environment that supports equitable opportunities consistent with the educational objectives of member colleges.

A trick-or-treater gets a free face-painting session during WCC's annual Community Halloween Celebration held on Oct. 28. The event is sponsored by WCC's PTK honor society chapter.

WCC Highlights, *Continued*

Snapshots...

For the first time in the history of the college, in May of 2010 WCC held three separate commencement exercises. The first was held on the evening on Friday, May 7, at the Wytheville Meeting Center adjoining the main WCC campus. That commencement ceremony was for general education and business majors. The second exercise was held on the afternoon of Saturday, May 8, also at the meeting center, for health professions graduates. A third commencement was held in the evening on May 8 in the auditorium of Carroll County High School. The third ceremony was arranged specifically for graduates of academic programs offered at the Crossroads Institute in Galax. WCC President Charlie White presided at all three events and presented each graduate with his or her degree, diploma, or certificate.

The WCC Concert Band, under the direction of Bill Svec, celebrated its 20th anniversary at the band's December 2009 Holiday Concert.

WCC held its second alumni picnic on July 30, 2010, in Hillsville at the Carter Pines Picnic Shelter. The event was well attended and featured music by The White Top Mountain Band. Future picnics are planned for other areas of the WCC service region.

WCC Facts-at-a-Glance

- Transfer Degrees from WCC transfer easily to Virginia's four-year colleges and universities.
- As part of the Virginia Community College System, WCC's tuition is the lowest of any college in the state.
- More than 4,300 different students enroll each year in credit courses at WCC.
- WCC is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097; Telephone number 404-679-4501) to award the associate degree.
- WCC's health professions degree programs have been accredited and/or approved by their respective professional associations.

WCC Foundation Highlights, 2008-2010

Barnes and Muncy receive DSA honors

Dr. Edwin L. Barnes and Patsy B. Muncy have been honored with Distinguished Service and Teaching awards from Wytheville Community College. Barnes received the Distinguished Service Award and Muncy was announced as the recipient of the Distinguished Teaching Award at the college's annual Honors Convocation held May 6.

Barnes came to WCC in 2005 as Executive Vice President. Despite having retired as President of New River Community College several years before, he willingly accepted the position at WCC when the Chancellor of the Virginia Community College System asked him to serve. In July, Barnes was named Acting President of Wytheville Community College, a position he held until the hiring of President Charlie White in the spring of 2006.

"During his tenure at WCC, Ed played a critical role in leading the college's successful reaccreditation process through the Southern Association of Colleges and Schools," said White. "He was also involved in early discussions related to what would ultimately become the Wythe-Bland Community Foundation Scholarship Program, one of the most unique scholarship programs in the nation."

Barnes earned his bachelor's degree from Elon College in 1963, his M.Ed. from the University of North Carolina-Greensboro in 1970, and his Ed.D. from Virginia Polytechnic Institute and State University in 1976.

Muncy, an Assistant Professor of Nursing, joined the college's faculty full time in 2005. She earned her associate's degree in Nursing from WCC in 1974, her B.S.N. from Bluefield State College in 1994, and her M.S.N. from Old Dominion University in 2005.

Dr. Lorri Huffard, Muncy's supervisor, wrote: "Patsy is both a model teacher and a model faculty member. She always has a positive attitude, and it is evident from her teaching evaluations that students adore her. She always keeps the students' best interests at heart and will go to extraordinary measures to assist a student when needed."

In addition to her regular teaching responsibilities, Muncy also serves on the WCC Nursing Curricu-

At top, Dr. Ed Barnes receives his award from WCC President Charlie White (left); at bottom, White presents Patsy Muncy with her award.

lum Committee, the WCC Nursing Student Faculty Committee, and the WCC Admissions and Standards Committee. She also currently serves as Treasurer of the WCC Faculty Government Association. Prior to teaching at WCC, Patsy worked for over 30 years at Wythe County Community Hospital.

She resides in Bland County.

Nathaniel W. Pendleton, Jr. established the Distinguished Service Awards Program in memory of his father, Nathaniel Willis Pendleton who was Wythe County's representative in the Virginia House of Delegates. Pendleton worked with State Senator E. Woodrow Bird to introduce the necessary enabling bill in the 1962 General Assembly to establish WCC and appropriate its operating funds.

Memorial endowment remembers Englar

In 1982, Renea Jonas enrolled at Wytheville Community College with the dream of becoming a registered nurse. Renea completed the nursing program at WCC and fulfilled her dream. While at WCC, Renea met and married Paul Englar. Renea and Paul had their first child, Cara, while she was still a student. She worked at several health care facilities after graduation. A second child, Brianna was born ten years later.

Unfortunately, Renea was diagnosed with cancer and passed away on October 31, 1996.

Englar's family wanted to do something special to honor her memory. "Renea always wanted to help people," explained her father, Floyd Jonas. "We wanted to continue her legacy by establishing a scholarship in her memory that would help other students fulfill their dreams."

Each year on May 23, Englar's parents, Floyd and Hilda Jonas, bring a check to the Wytheville Community College Foundation Office in honor of their daughter's birthday to support the "Renea Jonas Englar Memorial Scholarship Endowment." Englar's husband, Paul, also contributes regularly, as do other family members.

Since its establishment the "Renea Jonas Englar Memorial Scholarship Endowment" has provided 17 scholarship awards, totaling more than \$7,066.

"While all of our scholarships have special stories, this particular one is unique," said Dr. Charlie White,

WCC President. "The love and dedication of Renea's family continues to help so many students, and the family's ongoing support ensures that it will continue to do so for many future generations."

"It is gratifying to us to know that Renea's memory lives on," explained Floyd Jonas. Hilda Jonas adds, "We always enjoy meeting the recipients during the annual Scholarship Luncheon. Renea would be pleased."

Renea Jonas Englar

Veselik Scholarship Endowment established

The "Robert G. and Evelyn M. Veselik Scholarship Endowment" has been formally established by Bill and Cheryl Veselik in honor of Bill's parents. Robert Veselik, a native of Newport, Rhode Island, was a data processing programmer and manager for more than forty years, and Evelyn Veselik, a native of Radford, Virginia, was a high school teacher for nearly twenty years before their respective retirements. In addition to initial contributions from Bill and Cheryl, memorial donations from various supporters following the death of Evelyn Veselik in 2009 have increased the endowment level.

"We are extremely grateful to Bill and Cheryl for establishing this scholarship endowment," said Dr. Charlie White, WCC President. "Bill has served as WCC's Public Information Coordinator for 21 years, and we appreciate his and Cheryl's support in helping WCC students achieve their goals."

Interest earned from the investment of endowment funds provide scholarships to WCC students enrolled in the Management, Education, and various computer-related degree programs. First preference is given to students enrolled in the Management and Education curricula and to Smyth County residents.

Robert G. Veselik**

WCC Foundation Highlights, *Continued*

Sue Kilby's legacy lives on via emergency fund

For more than twenty years, Sue Kilby was an icon on the Wytheville Community College campus. No, she wasn't the president, administrator, or faculty member. Yet she touched thousands of students' lives, not to mention those of her colleagues. Beginning in 1982, Kilby served as WCC's evening switchboard operator.

Her responsibilities included manning an information desk and answering the switchboard. For many, Kilby was their first contact with WCC. For other students, Kilby was a mentor, a confidant, and a friend. One story goes that on a snowy evening when WCC closed early for inclement weather, Kilby—at age 70 plus—drove a student home to Marion because she didn't have a ride. Kilby was known to have a keen sense of humor and had a heart of gold. Numerous other stories recount how she often gave money to students in need.

Kilby received the WCC Distinguished Service Award in 1995. Upon her retirement from WCC in 2003 at the age of 80, she held the distinction of being the oldest employee in the Virginia Community College System.

Upon her death, Kilby's family worked with WCC to establish a memorial fund in Kilby's honor. In keeping with Kilby's love and support of students, the "Sue Kilby Emergency Student Aid Fund" provides emergency financial assistance to WCC students in need. It may help students who have a medical emergency, perhaps unable to afford needed medication; it may provide funds to help pay electrical bills or for unexpected transportation costs. Since its establishment, the "Sue Kilby Emergency Student Aid Fund" has provided assistance to many students.

The fund is set up in such a way that students who receive assistance are asked to repay the funds when they are financially able to do so. "We explain to student recipients that the fund is there to help them during a crisis and encourage them to repay funds so support will be available to future students," explained Dr. Rhonda Catron-Wood, WCC's Vice President of College Development. According to Catron-Wood, many students do repay the funds.

While the "Sue Kilby Emergency Student Aid Fund" is not an endowment, Catron-Wood noted that many of Kilby's friends and WCC faculty and staff continue to support the fund on an annual basis.

"We are very fortunate to have this important fund available to our students," said Dr. Charlie

White, WCC President. "Support from this fund has undoubtedly kept many WCC students in college."

For more information about the "Sue Kilby Emergency Student Aid Fund," contact Catron-Wood in the WCC Foundation Office at 276-223-4771.

Sue Kilby

Instruction award aids innovation in classroom

Through the vision of a former WCC Dean of Instruction, Dr. Leonard O'Hara, WCC's "Improvement of Instruction Award" encourages and recognizes WCC faculty for innovative classroom practices. Established in 1982, the award was created to promote creative teaching. Recipients are selected through a nomination process.

The award provides tangible incentive to encourage innovation. It encourages faculty to find new ways to teach. The "Improvement of Instruction Award" encourages faculty to "think outside the box" about ways that they can better help students learn.

Since its establishment, 27 faculty members have been honored. Recipients receive a recognition plaque, along with a \$100 honorarium.

O'Hara served as Dean of Instruction from 1980 to 1985. However, his ties to the college have continued beyond the award that he established. After

WCC Foundation Highlights, *Continued*

leaving WCC, O'Hara went on to become President of Paducah Community College in Kentucky. He retired from that position after 11 years and was subsequently hired by the Clements Group, LLC, one of the premier community college consulting firms in the United States.

The WCC Educational Foundation hired the Clements Group to assist with the "WCC Forging Futures Capital Campaign," which was the first capital campaign ever undertaken by the college. O'Hara was assigned to the project—allowing him to return to WCC. He and his wife have since decided to make Wytheville their summer home.

"We're very grateful that the O'Haras have returned to the area," said WCC President Dr. Charlie White.

Wytheville Community College's "Improvement of Instruction Award" is presented each year at the annual Honors Convocation.

New endowment honors Helen Calfee Hanks

The Wytheville Community College Educational Foundation recently announced the establishment of the "Helen Calfee Hanks Memorial Scholarship Endowment." This new endowment was established by her granddaughter, Cathy Hanks.

In creating the scholarship, Cathy indicated that

Dr. Charlie White (left) presents the 2010 Improvement of Instruction Award to John Lawson, Assistant Professor of Social Science at WCC. Lawson was recognized for his development of the Human Services degree program at the college. The award was presented at the annual Honors Convocation.

her grandmother, Helen Calfee Hanks, married and reared seven children in the same hollow where she was born in Carroll County, Virginia. She never held public office, was not a community leader, and did not achieve any type of fame. What she did do was raise seven children by keeping a large garden, washing their clothes on a washboard, and attending church at every opportunity. She did what the majority of rural folks do and get little credit for. She produced seven law abiding, taxpaying, hardworking citizens of Southwest Virginia who all chose to remain in the area, raise their families, and continue to make it a good place to live.

The new endowment will provide scholarship awards to deserving students attending Wytheville Community College. Recipients must be residents of Carroll County, Grayson County, or the City of Galax and should have financial need but may not necessarily qualify for federal or state financial aid programs. Recipients must also be willing to complete 20 hours of community service with an approved agency.

"We are extremely pleased to announce the establishment of this new endowment," said Dr. Charlie White, WCC President. "I commend Ms. Hanks for honoring her grandmother by helping others achieve their educational goals."

Pictured above are: (left to right) Gerald Goad, Cathy Hanks, WCC President Charlie White, and VP of College Development, Rhonda Catron-Wood.

Support from the Wythe-Bland Foundation

Wythe-Bland Foundation Scholarship Program

The “Wythe-Bland Foundation Scholarship Program” is an extraordinary program that provides full tuition scholarship assistance for up to five semesters to qualified WCC students who have graduated from a Wythe or Bland county high school. The program began with the Class of 2007.

“The ‘Wythe-Bland Foundation Scholarship Program’ is a tremendous opportunity for the young people of Wythe and Bland counties,” said Dr. Charlie White, WCC President. “Not only is the program an incredible investment in the youth of our communities, but it is also a tremendous economic development opportunity for the region.”

Applicants must seek all other available resources, including financial aid programs, scholarships, and grants which are applied to student accounts prior to their receiving awards through the “Wythe-Bland Foundation Scholarship Program.” Funds provide tuition and fees not covered by other resources.

Since 2007, the WBF Scholarship program has served 417 students, with awards totaling \$900,000.

Jessica Thomas, a Fort Chiswell High School graduate, is a recipient of a Wythe-Bland Foundation Scholarship. She performed her community service, as required by the program, at the Copper Crest Riding Therapy Program.

Bike and Walking Trail project receives support

Currently in the planning and development stage, the WCC Bike and Walking Trail will be a three-mile paved walking trail around the circumference of WCC’s main campus and near the Town of Wy-

This green stretch of land behind the WCC campus will be part of the planned Bike and Walking Trail.

Caleb Whitt, a Rural Retreat High School graduate and a recipient of the Wythe-Bland Foundation Scholarship, performed his community service at the Edith Bolling Wilson Birthplace Foundation.

WCC Foundation Highlights, *Continued*

Support from the Wythe-Bland Foundation, Continued

theville's Wellness Center. The trail will provide an instructional area for health and physical education programs offered through both WCC and the Town of Wytheville's Parks and Recreation Department. The trail is expected to be completed in 2011. The Wythe-Bland Foundation has provided \$400,000 for this project.

Children at the Child Development Center enjoy equipment bought by the W-B Foundation.

W-B Foundation assists WCC's Child Dev. Center

In 2007, the Wythe-Bland Foundation provided \$85,000 for equipment to help establish WCC's Child Development Center, a learning lab for students enrolled in WCC's Early Childhood Education Center. In addition to providing an excellent hands-on lab for WCC students, the Child Development Center helps meet the need for child care for the community.

Grant funds Project Healthy Living at WCC

In 2008, Wytheville Community College was awarded a grant for the "Project Healthy Living" initiative from the Wythe-Bland Foundation. The overarching objective of Project Healthy Living involved designing and implementing programs to promote better health in the Wythe-Bland community.

The project led the successful development of Wytheville Farmers Market, collaboration with local

public school systems with a focus on child health, along with assisting area agencies and organizations fulfill goals related to improving the health of the community. A health fair was held in June of 2010.

This inflatable heart was featured at a 2010 health fair.

W-B funds Healthcare Simulation Laboratory

The Wythe-Bland Foundation has provided \$1 million in support of the Healthcare Simulation Laboratory at WCC. Funds were used to purchase state-of-the-art simulation mannequins. These life-like mannequins can "talk," as well as exhibit many human functions such as sweating, crying, bleeding, and so on.

"The simulation lab gives students in WCC's nursing and other healthcare programs a very 'real' experience," said Rita Klimas, Nursing Program Head. "We are able to simulate real-life medical emergencies that give students an opportunity to react and see the consequences of the actions or treatments that they provide." The WCC Healthcare Simulation Lab is one of the best in the state.

A Respiratory Therapy class utilizes WCC's Healthcare Simulation Laboratory.

WCC Foundation Highlights, *Continued*

Woodford endowment created by bequest

The Lt. William Lockett Woodford, Jr. Memorial Scholarship Endowment was established in November 2008 through a gift from the estate of William L. “Bill” Woodford, Sr. given in memory of his only son, William Lockett Woodford, Jr.

William Lockett Woodford, Jr. was a graduate of George Wythe High School and a 1962 graduate of Virginia Military Institute where he earned a degree in civil engineering.

At VMI, Woodford was a first lieutenant in the cadet corps and a member of the Honor Court. He was also circulation manager of “The Bomb,” a campus publication; manager of the track team; and a member of the student chapter of the American Society of Civil Engineers. Following graduation from VMI, Lt. Woodford enlisted in the United States Air Force. He was en route to his assigned tour of duty in Alaska when the plane on which he was traveling crashed on June 5, 1963, killing all 101 passengers.

The William Lockett Woodford, Jr. Memorial Scholarship Endowment is available to deserving WCC students without specific restrictions to residency or curricular program. Recipients do have to maintain satisfactory academic progress and have financial need.

“We are extremely pleased to have received the Woodford Endowment,” said Wytheville Community College President Charlie White. “This endowment will benefit many WCC students for years to come.”

To date, the Woodford Endowment has provided a total of 23 scholarships.

Armentrouts establish scholarship endowment

Olin and Rowena Armentrout of Max Meadows recently donated \$20,000 to establish the “Olin and Rowena Armentrout Scholarship Endowment” through the Wytheville Community College Educational Foundation. The new endowment will provide scholarships to deserving WCC students.

Olin and Rowena are long-time friends and sup-

porters of Wytheville Community College. Olin was one of the founders of WCC. He was appointed to serve on the first College Board when WCC was established in 1963 as a two-year branch of Virginia Polytechnic Institute and State University. When the Virginia Commu-

Olin Armentrout

nity College System was formed in 1967, Armentrout was again appointed to the College Board as a representative from Wythe County, and he served an additional two terms. During his tenure on the Board, he was elected to serve as both Chairman and Vice Chairman of the Board. In 1998, he was again appointed to the College Board and was reappointed in 2002. He served on the selection committees for all of WCC’s presidents. Former WCC College Board Chair Craig Allison noted that “Armentrout’s unprecedented five terms on the WCC College Board are due to the fact that Olin consistently supported the mission of WCC and the VCCS.”

Throughout the years, Olin received numerous recognitions for his service to the college. In 2003, he was given WCC’s inaugural “Presidential Medal of Merit,” and in 2004, he received an Honorary Associate Degree in Humane Letters. Olin was honored in 2005 as the first-ever recipient of the “Chairman’s Award for Meritorious Service by the State Board for Community Colleges”; this award was given in recognition of Armentrout’s service on WCC’s Board, the leadership role he has played in the establishment and life of WCC, and his participation in college-related activities.

In 2007, Olin received WCC’s prestigious “Distinguished Service Award.” In nominating Olin for the award, retired WCC faculty member Don Alexander wrote: “While Olin Armentrout has had other fine recognition by WCC and the VCCS, the ‘Distinguished Service Award’ justly acknowledges Olin’s selfless service to this institution and the citizens it serves. He is truly deserving of this recognition.”

WCC Foundation Highlights, *Continued*

Beyond Olin's service to WCC, he has received many awards for his community service, including the Outstanding Citizen of the Year award from the Wytheville-Wythe-Bland Chamber of Commerce in December 2004.

Olin is a retired federal mail carrier and held national office for 12 years with the National Rural Letter Carriers' Association. He served as labor representative, as well as held positions of president, vice-president, and secretary/treasurer with the National Rural Letter Carriers' Association. He retired with a total of 32 years of federal service.

Rowena Armentrout has also been a strong supporter of education, having taught in Wythe County Public Schools for 25 years. She served as a teacher at Max Meadows Elementary School.

"We are extremely grateful to Olin and Rowena for this generous gift," said Dr. Charlie White, WCC President. "The Armentrout Scholarship will help many deserving WCC students earn an education. The scholarship is an investment in our students and in our community."

Family honors Johnsons by creating endowment

The Wytheville Community College Educational Foundation recently received donations to establish the "Robert Eddystone Johnson and Virginia Williams Johnson Memorial Scholarship Endowment." Mr. and Mrs. Johnson were lifetime residents of Wythe County. They built and operated the Johnson Motel and Restaurant in west Wytheville and had several farms. Mr. Johnson was a World War II veteran. Mr. and Mrs. Johnson were actively involved in the community.

"We are very pleased to announce the establishment of this new scholarship," said Dr. Charlie White, President of Wytheville Community College. "Scholarships are a great way to honor the memory of family members while providing much-needed financial assistance to deserving WCC students from Wythe County." With the current economic recession, more students than ever are realizing the importance of earning a college education, and the need for scholarships is greater than normal.

According to Dr. Rhonda Catron-Wood, WCC's

VP of College Development, funds received to establish the Johnson Endowment will be invested, with only interest earned to be used to provide scholarships to students for generations to come. Initial donations to the "Robert Eddystone Johnson and Virginia Williams Johnson Memorial Endowment" were made by the family. Anyone else wishing to contribute to the endowment may do so by contacting Catron-Wood at 276-223-4772.

Tobacco Commission supports scholarships

WCC sincerely appreciates the Virginia Tobacco Indemnification and Revitalization Commission for its support of the "WCC Forging Futures Scholarship Program" which provides tuition scholarships to qualified students. Based on criteria including students from tobacco growing families, financial need, and academic success, the scholarship assists students from Carroll, Grayson, and Smyth Counties, and the City of Galax.

WCC received \$200,000 for the 2009 program, \$150,000 for 2010, and \$350,000 for 2011.

In 2008, the Virginia Tobacco Commission helped with start-up costs associated with starting a Truck Driver Training Program. Funds were used to purchase tractor trailers and fund partial first-year faculty salary costs. Housed at the Crossroads Institute in Galax, the Truck Driver Training Program provides a six-week curriculum that prepares students to earn a Class A Commercial Drivers License.

WCC donors recognized with philanthropy award

Three recent Chancellor's Awards for Leadership in Philanthropy at Wytheville Community College have been given in honor of local philanthropists who support the WCC Educational Foundation.

In 2008, the family of Robert Eley and Jane Johnson was the recipient of the Chancellor's Award for Leadership in Philanthropy. The Commonwealth Legacy Scholarships associated with that award was presented to Samantha Frye from Smyth County.

The 2009 leadership award was given to William and Diane Hurst of Wytheville and India Ridpath of Fries was the student recipient of the Commonwealth Legacy Scholarship.

Counts Drug, Inc. of Wytheville was WCC's recipient of the "2010 Chancellor's Award for Leadership in Philanthropy." The associated scholarship was presented to Samantha Magyar of Bland.

Students selected for the Commonwealth Legacy

Pictured above (left to right) are Charlie White, Jane Johnson, and Rhonda Catron-Wood

Scholarships have demonstrated academic excellence during high school, as well as a commitment to developing their leadership skills. They will become mentors to future Legacy scholars as they move through their academic programs. The Commonwealth Legacy Scholarship Program was established through the generosity of private donors to the Virginia Foundation for Community College Education (VFCCE).

Previous recipients of the Chancellor's Award for Leadership in Philanthropy were Carolyn Frazier Sanders and Ruth Anne Chitwood, both residents of Wytheville.

Pictured from left to right are Charlie White, Reed Counts, Samantha Magyar, Bill Weisiger, and Dennis Counts.

NAP emphasizes public and private partnerships

The WCC Scholarship Foundation is a 501(c)(3) organization that was created in 1998 for the sole purpose of raising scholarship funds for impoverished students at WCC. Since then, \$108,275 has been awarded in scholarships assisting over 300 students in furthering their education.

The Neighborhood Assistance Program emphasizes partnerships between the private and public sector to assist the economically deprived. State tax credits are provided as an incentive for businesses and individuals to contribute directly to an approved nonprofit organization designed to benefit impoverished people. In return for their contributions, businesses and individuals receive credits that may be applied against their state income tax liability.

Businesses (Sub S, Partnership, LLP, LLC, PC) who contribute at least \$1,000 or no more than \$437,500 are eligible for a state tax credit of 40% of the total contribution. Contributions may be in the form of cash, stock, real estate, or some professional services may be accepted.

Tax credits are available to individuals or married couples that make cash donations. The minimum donation by an individual or married couple must be at least \$500 or no more than \$125,000. The value of the tax credit is equal to 40% of the donation up to a maximum of \$50,000 credit per taxable year.

Gifts to the WCC Scholarship Foundation will be invested to generate scholarship funds.

Snyder Auditorium on track for Jan. opening

The William F. Snyder Auditorium is nearing completion.

Through the generosity of Carolyn Frazier Sanders, the project was first conceptualized in 2002. At that time, Sanders pledged \$300,000 for the project and also generously offered to match up to an additional \$300,000 for the project. Sanders' offer was the impetus for the college's first-ever capital campaign. During the campaign, WCC donors exceeded

In November, crews were completing landscaping outside the new Snyder Auditorium while workers were continuing construction and painting indoors.

the \$300,000 matching funds, with the WCC Educational Foundation receiving a total of \$384,258.12 designated for the project. A General Obligation Bond provided an additional \$543,080 for the auditorium.

Through a renovation of some existing space and with an addition to Grayson Hall on the college's main campus in Wytheville, the William F. Snyder Auditorium will seat 200 people. The stage area has been expanded, and wing space behind the stage has been added that will include the William and Rita Dixon dressing rooms. Also, the Robert Eley and Jane Johnson Lobby will provide space that will not only be used as a reception foyer for events but will also be available as instructional space, meeting space, and gallery space as needed.

"We are very excited about the completion of this project," said Dr. Charlie White, WCC President. "Design and construction of the project has taken much longer than expected. I know that Carolyn and Bill Snyder, as well as the other generous donors, will be pleased to see that it is finally complete. I am sure that it will be worth the wait."

Construction is scheduled to be completed by the end of December, with an anticipated occupancy date of mid-January. A special dedication ceremony is being planned, and all supporters of the project will be invited.

The Snyder Auditorium is named in honor of President Emeritus Dr. William F. Snyder, who served as WCC's President from 1980 until 2001.

Twin County Leadership Institute marks 3rd year

In 2007, the Wytheville Community College Educational Foundation received a most generous gift of \$200,000 from an anonymous donor to support leadership development opportunities for WCC students and community residents. The donor recognized the need, especially in Southwest Virginia, to cultivate leadership skills of future community leaders.

“This donation is definitely an investment in our students and in our communities,” said Dr. Charlie White, WCC President. “WCC is committed to providing both educational opportunities and helping develop a stronger regional economy. Leadership development training is an important component of both of these goals, and we are pleased to have received financial support to help ‘grow our own’ community leaders.”

WCC chose to focus initial efforts in the Twin County region, creating the “Twin County Leadership Institute.” In partnership with Virginia Cooperative Extension, the Twin County Regional Chamber of Commerce, and the Crossroads Institute, WCC has hosted three annual programs through “Twin County Leadership Institute.” To date, 47 individuals have completed the training.

The program currently being used is based on curricula developed by the Virginia Cooperative Extension. Kevin Spurlin, Extension Agent, has led program sessions, including six modules: (1) Leadership Traits, (2) Effective Communication and Presentation Skills, (3) The Leadership Team, (4) Vision and Goal Setting, (5) Community Planning, and (6) Working and Communicating with Elected, Appointed, Volunteer Boards and Organizations. Special guest speakers are often invited to participate throughout the program.

Program enrollment for each class has been limited to 20 people and has been open to residents of the City of Galax, Carroll County, and Grayson County, or to people who work primarily in these areas. Half of the slots have been designated each year for Wytheville Community College students from these areas. “The ‘Twin County Leadership Institute’ has been extremely successful during the first three years,” said

White. “It has been a great opportunity for the citizens of our region to enhance their leadership skills and, in turn, become better prepared to serve in local government and community leadership roles. We look forward to continuing the program.”

“I was born in Columbia, South America. I was adopted by a wonderful family in the United States. Being adopted has been the greatest thing that has ever happened to me. Living in the States has allowed me to go to college and complete an Associate’s

Degree in Education and help children, which is my passion. I love working with children; they keep everything fun and exciting. This class has taught me to be a better team player and leader.”

Jenny Grabman Bird
2010 TCLI Graduate

“I am enrolled in the IST program at WCC after having lost my job after nearly 22 years of employment. My former job required me to participate on a departmental team on a daily basis. I wish I could have had the experience of this class prior to the job experience. The knowledge I have gained from this class will help me as a member of a team.”

Lisa Sayers
2010 TCLI Graduate

WCC Educational Foundation Board President Robert Kegley (far right at podium) addresses attendees at a recognition luncheon for contributors to non-scholarship endowments held on Oct. 11. The luncheon was the first ever held for non-scholarship donors. "The people who support educational funds at WCC were overdue for some well-deserved recognition," said VP of College Development Rhonda Catron-Wood. "Their generosity makes a real difference at WCC."

WCC Contributors, 2008-2010

The following is a historical list of contributors to the WCC Educational Foundation and the WCC Scholarship Foundation since their inceptions in 1981 and 1998, respectively, through June 30, 2010. Every effort has been made to ensure that the list is comprehensive and accurate. Please note that donors are listed alphabetically within established donor recognition categories. Total contribution amounts do not include outstanding pledges. Also, the list includes the names of many donors who are deceased. In the event that a contributor's name was inadvertently omitted or information is incorrect, we apologize. Please contact the Foundation Office at (276) 223-4771 so that we may update our records.

Ways to Give to WCC

Charitable gifts to the WCC Educational Foundation or the WCC Scholarship Foundation are investments in the future of our students, our workforce, and our communities. There are several ways to make gifts:

Outright Gifts

- Cash Gifts
- Appreciated Stocks and Bonds
- Gifts of Real Estate/Personal Property
- Gifts of Equipment, Materials, and Services
- Memorial/Honor Gifts
- Matching Corporate Gifts

Planned Gifts

- Your Will
- Life Insurance
- Your Retirement Account
- Deferred Gifts
 - Charitable Gift Annuity—You may give the WCC Educational Foundation a gift of money, stocks, bonds, or other liquid assets, and the WCC Educational Foundation will pay you or a beneficiary a fixed amount on a regular basis until death. A large part of this income is tax free, and you also receive a charitable deduction for part of the gift. This is appropriate for gifts in the \$5,000 to \$50,000 range.
 - Charitable Remainder Trusts—By transferring assets to the WCC Educational Foundation to establish a trust, you or a beneficiary receives a lifetime income. Eventually, the remaining assets of the trust pass on to the WCC Educational Foundation. This gift works well if you need income now. This is appropriate for gifts of \$50,000 or more.
 - Charitable Lead Trusts—You may transfer assets to a trust for a fixed number of years. The interest earned will go to the WCC Educational Foundation, and later the principle will go back to you or your beneficiaries. The gift works well if you do not need current income and want the asset to go to a beneficiary. You may claim a tax deduction for making a lead trust gift.

The WCC Educational Foundation and the WCC Scholarship Foundation welcome gifts of all types and will work with you and your financial advisor to maximize the tax benefits for you. We are grateful for your support. For more information about ways to help Wytheville Community College, contact

Dr. Rhonda K. Catron-Wood
